PROFESSIONAL SUMMARY

Third-year student at Foreign Trade University with strong interest in Business Analysis and Project Management in technology environments. Experienced in working with structured datasets, supporting operational workflows, and collaborating across teams. Equipped with analytical thinking, SQL, and process understanding, I am seeking to contribute to system analysis and project coordination in a tech-driven organization.

EDUCATION

2023 - 2027

Foreign Trade University (FTU)
International Economics
GPA: **3.73 / 4.0**

WORK EXPERIENCE

04/2025 - 08/2025

Long Sơn Education Technology Co., Ltd
Exam Registration Data Support (Part-time)

- Managed and validated **data for 500+ candidates**, ensuring high data accuracy and consistency.
- Coordinated with internal teams to support **end-to-end registration workflow**.
- Identified data issues and supported resolution to improve operational efficiency.

Achievements:

- Maintained **98%+ data accuracy**
- Reduced data entry errors by **30%**

9/2025 - 10/2025

Phòng Tốt Joint Stock Company
Data Entry Intern (Full-time)

- Maintained and validated operational datasets using **Google Sheets and internal systems**.
- Collaborated with multiple departments to ensure **data consistency and reporting accuracy**.
- Supported preparation of **weekly and monthly reports** for internal stakeholders.

Achievements:

- Achieved **99% data accuracy**
- Completed tasks **10% ahead of schedule**

PROJECTS

01/2026 - 03/2026

E-commerce System Project
Business Analyst

- Analyzed and designed an end-to-end e-commerce system including product search, cart, checkout, and order management
- Developed BRD, SRS, User Stories, and Acceptance Criteria
- Created UML diagrams (Use Case, Sequence, Activity) and BPMN workflows
- Modeled system processes and defined API specifications

04/2025 - 05/2025

HR Performance Analysis Project
Data Analyst

- Analyzed HR dataset to evaluate employee performance, workforce distribution, and key HR metrics

- Identified patterns related to employee productivity, satisfaction, and retention
- Built dashboards and visualizations to support data-driven HR decision-making
- Generated business insights to improve workforce efficiency and optimize HR strategies

SKILLS

Business Analysis & Project Skills	Requirement Analysis Business Process Modeling (BPMN – basic) Stakeholder Communication Problem Solving & Analytical Thinking Workflow Coordination
Technical Skills	SQL Python (Basic data analysis) Excel (Pivot Table, Data Cleaning) Google Sheets

CERTIFICATIONS

03/2026	**Foundations of Agile Project Management - Google**
02/2026	**Google Data Analytics (9 courses) - Google**
10/2024	**SQL Intermediate - HackerRank**
8/2023	**MOS EXCEL, MOS WORD**

AWARDS

2023 - 2024	**Academic Scholarship – Foreign Trade University** **Academic Year 2023–2024**

ACTIVITIES

04/2025 - 5/2025	**Summer Data Bootcamp 2025** **2nd Prize** Participated in data analysis challenges using real-world datasets Presented insights and analytical findings via PowerBI
7/2025 - 9/2025	**Data Science Talent Competition** **Round 2** Collaborated in team-based data analysis scenarios

ADDITIONAL INFORMATION

- Achieved **A (> 9.0/10)** in Programming for Data Analysis and Scientific Computing, Informatics, Applied Informatics, Econometrics and Data Management System
- Completed advanced English courses at university level, achieving proficiency **equivalent to CEFR B2+ (upper-intermediate)**
